

# How to install Content Packs

---

## **Windows**

- Open Windows Explorer and locate your hard drive where Toontown Rewritten is installed, typically labeled "C:/".
- Find "Program Files x86", then locate the Toontown Rewritten folder.
- Drag the "resources" folder into the Toontown Rewritten folder located within "Program Files x86".
  - The Content Pack itself is a file that ends with a ".mf" at the end of it. You'll want to ensure this is in the "resources" folder where Toontown Rewritten is installed.
- Launch the game.

---

## **Mac**

- Open Finder
- In Finder, click the following keys on your keyboard: command, shift, G
- You'll get a popup, you'll want to directly copy and paste the following line into the popup without quotes, then hit Go:
  - "~/Library/Application Support/Toontown Rewritten"
- Drag the "resources" folder into the Toontown Rewritten folder.
  - The Content Pack itself is a file that ends with a ".mf" at the end of it. You'll want to ensure this is in the "resources" folder where Toontown Rewritten is installed.
- Launch the game.
